

### POSITIVE INTERVENTION OF ALUMNI IN TIME OF PANDAMIC

During 2021 Covid 19 pandemic had severely affected almost all normal activities in personal and social spheres of existence thereby virtually bringing life to a standstill which was called new normal that adversely impacted the hitherto existing pattern of life at home workstation schools and colleges. Needless to say the pandemic situation had its destructive impact on normal mode of education. As a possible way out of this adverse situation individuals institutions and the governments resorted to online education using information communication equipment's and the internet. But many people especially poor people in rural areas found it difficult to get and use sufficient gadgets and the net coverage in many areas was inadequate.

In this exceptional circumstances college alumni association pooled their resources and prepared and implemented a host of activities aimed at providing suitable digital gadgets to access the available online education. So that the process of education could be continued in the prevailing new normal accordingly alumni association distributed the following equipment's to the people who really could not afford it personally. Alumni association of the department of computer science distributed four television set of high quality to the students belonging to lower primary classes of the school needy. Alumni association of commerce department distributed three smart phone and alumni association of mathematics department extended financial support to many students. Alumni association of physics department conducted Jais Tom memorial programme as part of which financial and other assistance was provided to the students who were in need of it to tide over the problems posed by the pandemic Covid 19. Comprehending the problems faced by fellow human beings and trying to solve it in the spirit of compassion was the motive behind all these activities characterized by reciprocity

Sir,

Sri Jais Tom had been the most promising student at M.G College, Iritty [ 2004 - 2007 Batch ], who proved his exceptional calibre with his brilliant performance at Central University Hyderabad from where he took his M.Sc. Degree [ 2007 - 09 ], DRDO, Pune, [ 2009 - 2011 ] from where he took his M.Tech. Degree and IIT Madras [ Ph.D. work, 2011-12 ].

The saga of his bright life and career, which was always noted for academic and innate human virtues and excellence, was cut short when an accident put an end to the early life of our beloved Jais. Now the fragrance of his qualities and the aura of his unique, personality have become an immortal part of our memory, which has inspired the Dept. and alumni of Physics Dept., especially his batch mates, to organize this function.

On this occasion, kindly cooperate with us by sending teams of students to take part in this programme.

With regards,
